About the program

In our never-ending quest to find new and innovative ways to enhance the learning experiences of our clients, we have developed a strategic alliance with the Canadian distributor of an online instructional aid that we are offering to our students.

Uses for the program

This online program can be used in a variety of ways

- As an academic enhancement in the classroom
- For make-up time at the student's convenience
- As extra homework
- As supplementary material when a student is struggling
- To enable us to provide our training services to students in geographically remote locations

About the tool

This powerful online instructional tool provides targeted instruction in core skills to improve student achievement. The tool:

- addresses individual learning needs
- improves student proficiency
- motivates and engages all students
- can report on progress, time spent per lesson, grade levels
- can adapt to different learning styles

List of subjects covered

The program offers instructional programs from pre-elementary to grade 12 levels in the following subjects:

- Reading
- Writing
- Language
- Math
- Science
- Information Skills
- Workforce Readiness

Additional Resources

The management system enables us to monitor and demonstrate student progress, identify where help is needed, provide a snapshot on activities completed and time on task, and provide communication tools. We can use individual student's progress to make informed, data-driven decisions regarding curriculum.
